

I am not in favor of having the Indiana do not call list altered to include businesses that I have a relationship with. If I have a need or want to correspond with them, I know where they are and how to reach them. The businesses trying to get this changed only want it done so they can call and harrass customers and try to sell them more products. Again, I think as consumers, we know when we have a need and will contact who we want to provide the service when the time comes. Please do not change the do not call list as is currently made up. It is so enjoyable not being constantly interrupted with telemarketing phone calls.
